BIOGRAPHY

Linda Steinke's extensive career in the field of aircraft title and registration, financing, and leasing began in 1988. After gaining valuable industry training and experience working for Oklahoma City-based Aero Records and Title Co., she entered the legal field as a paralegal specializing in aviation matters two years later.

Linda joined McAfee & Taft's Aviation Group in 1993 and is currently responsible for performing title examinations of Federal Aviation Administration aircraft records and providing clients nationwide with reports detailing ownership and lien status information. She also specializes in issues involving the fractional ownership of aircraft and works closely with one of the nation's largest fractional ownership programs by assisting them with their FAA needs.
