# Mark A. Wyckoff

Chief Information Officer

405.270.6080 | mark.wyckoff@mcafeetaft.com

Oklahoma City

## Overview

Mark Wyckoff joined McAfee & Taft in 2025, bringing with him more than 30 years of experience in information technology, cybersecurity, and project management across multiple industries to his role as the firm's chief information officer. In addition to providing for the information and technology needs of the firm's three offices and nearly 325 employees, he and his team manage and deploy technological resources designed to enhance operational efficiency, speed, and responsiveness. Mark also leads the firm's cybersecurity and compliance initiatives, ensuring the safety, security, and privacy of client and firm data.

Prior to joining McAfee & Taft, Mark served as vice president of technology, chief information officer, and HIPAA security officer for the Dean McGee Eye Institute, Oklahoma's premier eye center, where he oversaw major infrastructure modernization efforts, security and compliance improvements, and key technology integrations with the Epic electronic medical record system. His earlier experience includes information technology leadership and engineering roles with a multinational professional services network, a financial services corporation, a publicly traded independent oil and gas company, and a medical technology firm.

Mark earned his bachelor's degree in management information systems from Oklahoma State University. Outside of work, he is active in his community, serving in various volunteer positions at his church and with the Boy Scouts of America—where, after 17 years of unit-level service, he now contributes at the district level. He also enjoys hiking and backpacking, competing occasionally in barbecue competitions and cooking for large groups.
